

Senior java developer

Job Description

Roles and Responsibilities:

Interpret briefs to create high-quality code that functions according to specifications.
Design, create, and implement Java-based applications.
Determine application functions and objectives with the team.
Ensure that written code aligns with the project objectives.
Work closely with the Product Manager/Architect to define deliverables.
Mentor and motivate the team to achieve project deadlines.
Develop code for complex modules and work with Lead to define product architecture.
Adhere to coding guidelines and ensure that the team follows them.
Conduct code reviews based on agreed-upon guidelines.
Possess hands-on experience in Docker, Kubernetes, AWS.
Have a good knowledge of Object-Oriented and Cloud-native computing design patterns.
Have working knowledge of CI/CD.
Have working knowledge of JIRA, Confluence, and Source Control like GitLab.

Requirements

Desired experience:

At least 5+ years of experience working with Java programming language and related technologies.
Experience with building and maintaining complex software systems is often required, as well as a deep understanding of software design patterns and principles.
Proficient in using tools like IDEs, version control systems, and build tools, and have experience with Agile software development methodologies.
Should be able to mentor and guide junior developers and provide technical leadership on projects.
Strong problem-solving skills, attention to detail, and the ability to work independently.
Knowledge of related technologies like databases, web services, and front-end frameworks can also be valuable.

Benefits

The company offers a range of employee benefits including:

Cashless medical insurance for employees, spouse, and children
Accidental insurance coverage
Life insurance coverage
Complementary lunch coupons
Company-paid transportation
Access to online learning platforms such as Udemy.
Retirement benefits including Provident Fund (PF) and Gratuity
Sodexo benefits for income tax savings
Paternity & Maternity Leave Benefit
National Pension Saving
